## **Healing of Landscape Angels**

Landscape Angels inspire and guide the creative processes of nature.

If they are aligned they support humans and beings of nature, bring healing and vital love and the whole region feels more complete.

If requested I can connect with this angel structure of your region, heal it, receive messages for you from the angels and bring you in contact with them. You can receive heavenly presents, instructions for your mission on the land/ in the city and answers as to why you are there.

Both works come in a package: the healing of the landscape angels and devas and their messages (recorded on CD). Landscape angel messages can be also requested in addition to Andreas diagnose. This is a great help to place yourself where you are, work with the land and beings of nature, to finally grow into your mission in the world.

Seminars about this subject can be requested at any time in your area.

Price: 120-180 €, depending on the size and situation of the region
